

Car transporter trailer AS1600-RB

(EC0358T1)

The light and compact single-axle tipping trailer is designed for the transport of smaller vehicles, including UTVs. Ramps with tilting dampers are a part of the trailer frame that allows for quick and convenient loading of the vehicle. The perforated surface ensures good grip.

Hot-dip galvanized sheet metal, suitable for northern conditions, has been used in the manufacture of the trailer. Waterproof hubs ensure a longer life for the bearings. Metal step-resistant fenders and step boards enable more comfortable use of the trailer. The trailer is equipped with belt loops to secure the load. By adding a bottom plate to the middle part, you can use the trailer to transport other lighter goods.

Upgrade your trailer with [accessories](#) for the best user experience.

Tehnilised andmed

Kasti laius (m):	1.77
Kasti pikkus (m):	4.1
