

Jet ski trailer JS750-L

(EC0533TI)

The jet trailer on the hot-dip galvanized welded frame is user-friendly and durable. This trailer is designed for both everyday use and those who only need a trailer once or twice a year. Fits all the most common jet ski models. NB! When choosing a trailer, keep in mind the dimensions and weight of your jet ski with fuel and additional equipment.

Leaf suspension with shock absorbers reduces the effect of potholes on the trailer and improves driving characteristics. Waterproof hubs ensure a longer life for the bearings. Metal fenders and steps that can withstand being stepped on allow more comfortable use of the trailer. The frame of the trailer is equipped with strong fastening eyes to secure the jet. The trailer is equipped with an adjustable winch jack, which allows the winch jack to be set in place according to the dimensions and shape of the jet. For more stable transport of the jet, the trailer winch is equipped with double nose supports. A winch with a brake ensures convenient and safe use. The rear keel roller directs the jet onto the trailer. The rails support the jet evenly along the entire length of the rail. Waterproof LED taillights are attached to the fender of the trailer. Thanks to this, the trailer can be used without moving the lights.

NB! When choosing a trailer, keep in mind the dimensions and weight of your jet, including fuel and accessories.

Upgrade your trailer with accessories for the best user experience.

Tehnilised andmed

Max paadi pikkus (m):	4.2
Raam:	Welded
Täismass (kg):	750*
Tühimass (kg):	157
Kandevõime (kg):	593
Haagise pikkus (m):	4.11
Haagise laius (m):	1.79
Sild:	leaf spring
Pidurid:	NO
Rehvid:	155R13 M+S
