

Cargo trailer CP365-LHE PRO + plastic cover with small defect. High borders.

(EC0216TIKL)

PRO series trailers are particularly suitable for professional use. The trailer on the reinforced all-welded frame is designed for everyday use when transporting particularly heavy loads. In addition, the trailers of PRO series are equipped with an innovative front hatch. There is a PPF (Paint Protection Film) in the corners of the front hatch, which increases the protection of the surfaces most damaged by stones flying from under the car's wheels.

The trailer is made of hot-dip galvanized sheet metal, suitable for northern conditions. Strong 2-groove side profiles increase trailer rigidity. Waterproof hubs ensure a longer life for the bearings. Metal step-resistant fenders and step boards enable more comfortable use of the trailer. The cargo box is equipped with strap loops on the inside and hooks on the outside to secure the load. Strap loops are attached to the side posts of the trailer to ensure greater tensile strength when securing the load. In addition, the bottom of the trailer can be fully utilized in this way, and the fastening loops do not interfere with loading and unloading (e.g. bulk material). The tilting cargo box and fully welded frame tailgate allows the trailer to be used for loading and unloading lighter vehicles (lawn tractor, ATV, etc.).

NB! There are visual defects on the cover, this does not affect the functionality (scratches, uneven color, wavy edges, etc.). Ask for more information on tel. 530 00605 or come and see on site Kadaka tee 185, Tallinn.

Standardvarustus

- ✓ Täiskeevisraam
- ✓ Tugevdatud kinnitusega tugiratas
- ✓ Ülitugev keevisliitega sild (sillatala tehniline kandevõime 2000 kg, rummud koormustaluvusega 2 x 1000kg)
- ✓ Lamineeritud veekindel põhjavineer 9mm
- ✓ Veokasti kallutus
- ✓ Kallutuse amort
- ✓ Eemaldatav esi- ja tagaluuk
- ✓ Vineeriga tugevdatud tagaluuk
- ✓ Täiskeevisraamil luugid
- ✓ Tugevdatud tagapaneel
- ✓ Metallist pealeastumist taluvad poritiivad
- ✓ Tugevdatud C rehvid
- ✓ Astmelauad
- ✓ Veopea 1400kg
- ✓ Tugevad 2-soonelised küljeprofiilid
- ✓ Plastkaas

WWW.TIKI.EE

- ✓ Fermiga tugevdatud veotiisel
- ✓ Rataste kinnitus 5 poldiga
- ✓ 8 kinnitusaasa (sees) ja 2 + 2 kinnituskonksu (väljas)
- ✓ Tasakaalustatud rattad M+S rehvidega
- ✓ LED ääretuled
- ✓ Pistik 13 klemmi
