

Cargo trailer CS350-LHE

(EC0210TI)

Primarily a light trailer for home use. It is ideal for household transport (for example, furniture, building material, plants and garden waste, etc.).

A practical trailer with box dimensions 300x150cm and a total weight of 750kg, without brakes.

The trailer is made of hot-dip galvanized sheet metal, suitable for northern conditions. Strong 2-groove side profiles increase trailer rigidity. Leaf suspension with shock absorbers reduces the effect of potholes on the trailer and improves driving characteristics. Waterproof hubs ensure a longer life for the bearings. Metal step-resistant fenders and step boards enable more comfortable use of the trailer. The cargo box is equipped with strap loops on the inside and hooks on the outside to secure the load. Strap loops are attached to the side posts of the trailer to ensure greater tensile strength when securing the load. In addition, the bottom of the trailer can be fully utilized in this way, and the fastening loops do not interfere with loading and unloading (e.g. bulk material). The tilting cargo box and plywood-reinforced tailgate allow the trailer to be used for loading and unloading lighter vehicles (lawn tractor, ATV, etc.).
